

AUTOCUE-WHAT IT IS AND HOW TO USE IT (AQ) © Voice Business

Great for executives and others...who have to speak at Conferences or Large Presentations.

This course is designed to give you an overall understanding of how to read your speech from an autocue. The autocue saves you a lot of time and effort when presenting your speech at large conventions and meetings, and can make you look extremely professional as a presenter. However, many people have no idea how to use an autocue (or have never even heard of one!). During this course you will learn some simple and easy techniques that will allow you to develop the ability to "sight-read", turning written words into "spoken" English and to conduct yourself confidently and professionally in front of the autocue set up. If you're ready to "wow!" your audience, this is a must do course.

Highly recommended.
